AMIGA CD³²™

Commodore

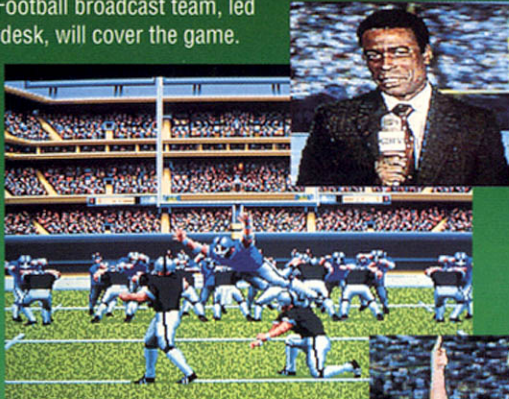

In **Amiga CD³² Sports: Football**, you decide whether you have complete control of the game, coach from the sidelines, or just sit back and watch the action.

Your Amiga CD³² Sports: Football broadcast team, led by Stan Gruel at the anchor desk, will cover the game. With video reports from Roland "Freight Train" Reed and Terri Ellis during the pregame, half-time and post-game shows, you will always know more about the game than just the score.

Warm up your passing, running, kicking and blocking in training camp or in exhibition games.

With 54 offensive plays and 45 defensive plays, you'll never run out of bone-crunching action. Add in snow, rain and audibles and you have the complete Amiga CD³² Sports: Football experience.
